## Quick Facts about Connecticut's African American Soldiers and Sailors of the Revolutionary War

- ✓ At least 820 African American soldiers, and seamen (patriots) served in the Revolutionary War from Connecticut. (This does not include those who provided civilian assistance or demonstrated a personal desire to be liberated from enslavement. Many men, women and children ran away or filed freedom petitions with courts and the General Assembly.)
- ✓ Connecticut's 820 patriots represent 16 percent of the known 5,000 who served from the 13 colonies and territories.
- ✓ Some estimate that up to 10,000 African Americans served In the Revolutionary War.
- ✓ At least 562 African American patriots are connected by birth, enlistment or residence to a town.
- ✓ At least 258 African American patriots are not associated with a town.
- ✓ Of Connecticut's 169 towns, 80 are connected to an African American patriot.
- ✓ At the time of the Revolution, African Americans accounted for 2.6 percent of the population of Connecticut, not including American Indians.
- ✓ According to the Connecticut census of 1774, 2,883 African American males of all ages resided in six counties in the state. (Middlesex County and Tolland County were created in 1785.)
- ✓ If, for example, 50 percent of the African American male population under 20 was over 16 and 80 percent of those over 20 were under 40, the level of eligible African American male participation in the Revolutionary War would be nearly 43 percent.

*It is but little wonder that when the Revolutionary War began in 1775 Connecticut's blacks were optimistic. In times of upheaval conditions change, and the black American of that era must have believed that change for him had but one way to turn – for the better. – David O. White*
